## Incentives for the Ferrous LP HC003 programme

### Incentive eligibility

- Participants will be eligible for receiving incentives for the Ferrous LP HC003 programme where they have met at least 50.00% of the LP Obligations on an aggregate basis across the Eligible Contracts. In order to determine whether a Participant has met 50.00% of the LP Obligations on an aggregate basis, the LME will determine the percentage of the LP Obligations that the Participant has met in relation to each of the Eligible Contracts, then calculate the arithmetic average of these figures.
- When Participants trade, they will be allowed a grace period of sixty seconds to re-enter the required bid or offer, to ensure that they are maintaining their bid-offer spread.

### Fee Rebates

- Participants that meet the conditions set out in paragraph 8 above will be eligible for up to 100% trading and clearing fee rebates of inter-office and LMEselect trades traded for the Participant’s own account. The Fee Rebates will be calculated on an aggregate basis across the Eligible Contracts pro-rata on the same basis as set out in paragraph 8 above.

### Liquidity Pool

11. Participants also have access to a total liquidity pool of up to US\$15,000 per month (the “**Liquidity Pool**”), subject to meeting the conditions set out below. The LME may vary the size of the Liquidity Pool at its discretion. Any changes will be communicated via Notice.
12. In order to be eligible for a share of the Liquidity Pool, Participants must meet:
  - a) at least 50.00% of the LP Obligations (calculated on the same basis as set out in paragraph 8 above); and

13. The Liquidity Pool Threshold is 10.00% of Total Qualifying LP Volume. If the number of Participants meeting the requirements set out in paragraph 8 above exceeds five (5), the Liquidity Pool Threshold will increase to 18.00% of Total Qualifying LP Volume.
14. Liquidity Pool payments for eligible Participants will be calculated as follows:
  - a) the Total Qualifying LP Volume that is attributable to the relevant Participant  
*divided by:*
  - b) the aggregate Total Qualifying LP Volume figure of each Participant that has met the Liquidity Pool Threshold and at least 50.00% of the LP Obligations

*further multiplied by:*
  - d) the percentage of LP Obligations as set out in paragraph 8 above that the Participant has achieved.
15. All individual Liquidity Pool payments shall be capped at a maximum of 50.00% of the total Liquidity Pool.
